

# CLEAN TATRA MOUNTAINS 2022

We would like to inform you with pure pleasure that the 11th edition of the Clean Tatra Mountains 🏔️ campaign, which Jan Niezbędný has been supporting from the very beginning, is already behind us! 🙌

The rainy weather could not stop more than 3,000 volunteers who lifted 402 kg of garbage from the Tatra trails and segregated it!

As every year, Jan Niezbędný equipped all volunteers and ambassadors with the necessary tools for cleanup - garbage bags and gloves packed in recycled backpacks - together we could leave a #GoodLead.

In addition, during the two days at the Eco-town on the Górna Równia Krupowa in Zakopane, everyone had the opportunity to participate in educational workshops and competitions, as well as have fun at a concert by the Zakopower band.

But this is not the end of our pro-environmental activities, as on August 27 during the second edition of the Clean Baltic 🌊 campaign we will be cleaning the Baltic beaches.

Join us and let's leave a #GoodLead together!
